09<sup>th</sup> November 2021,

Dear Parents and Carers,

An exciting opportunity has arisen. Evidence for Learning will shortly be launching their "family app".

This app will allow you to access your child's learning through notifications directly to your device, rather than emails, with a much more pleasant, user friendly set up. There is no limit to the number of accounts and it is available on iOS as well as Android.

The new family app will be released soon, but before it is released to all schools, we have been chosen as a pilot school. You will be aware we were scheduled to have Parents' Evenings the week before and after half term, we have postponed these until the app comes out so we can offer support.

When the app comes out all families can log on, access their child's learning and report back with any glitches. I will then be hosting tech support meetings where you can bring your devices into school and I will coach you to set them up, if you are unable to do this at home.

We really hope you'll love this app as much as we do and will feel an equal part of your child's learning.

As always, if you have any problems with Evidence for Learning, please contact me directly [c.hynes@sandfieldpark.liverpool.sch.uk](mailto:c.hynes@sandfieldpark.liverpool.sch.uk)
